

Metals X 2011 AGM

Warren Hallam, Managing Director

Creating a platform for the Future

2010/11 a year of consolidation and investment for the future

- After tax profit of \$62.8M (2010:\$12.6M)
- Current reserves of \$83M cash and receivables and \$60M of investments with no debt
- Tasmania tin assets \$21.5M profit for the year, strong exploration success with production ready to step up in the coming year
- Further advanced the large, long-life low-cost Wingellina Nickel and Cobalt project and now seeking partners for financing and development
- Sold part holding in Jabiru for \$48M in cash and hold 3.2% of IGO (\$28M) from initial investment of \$36M 12 months earlier
- Acquired a 17.11% holding in MRC and 25% holding in Aziana – an entry into the highly prospective frontiers of Mongolia and Madagascar.
- WGR (MLX 25%) completed the acquisition of Aragon consolidating a 3Moz resource base and aspiring to become Australia's next mid tier gold producer, producing 200Kozpa equivalent.

A strong portfolio of assets

Production

Tasmanian Tin Operations
(6,000 tpa Tin increasing to 8,000tpa)

Development

Renison Expansion (5,000 tpa tin)

Wingellina Nickel (40,000t Ni & 3,000t Co pa for 40+yrs)

Exploration

Renison Deeps Project (high-grade tin & copper potential)

Central Musgrave Project (Limonite, PGE' s, Ni Sulp.)

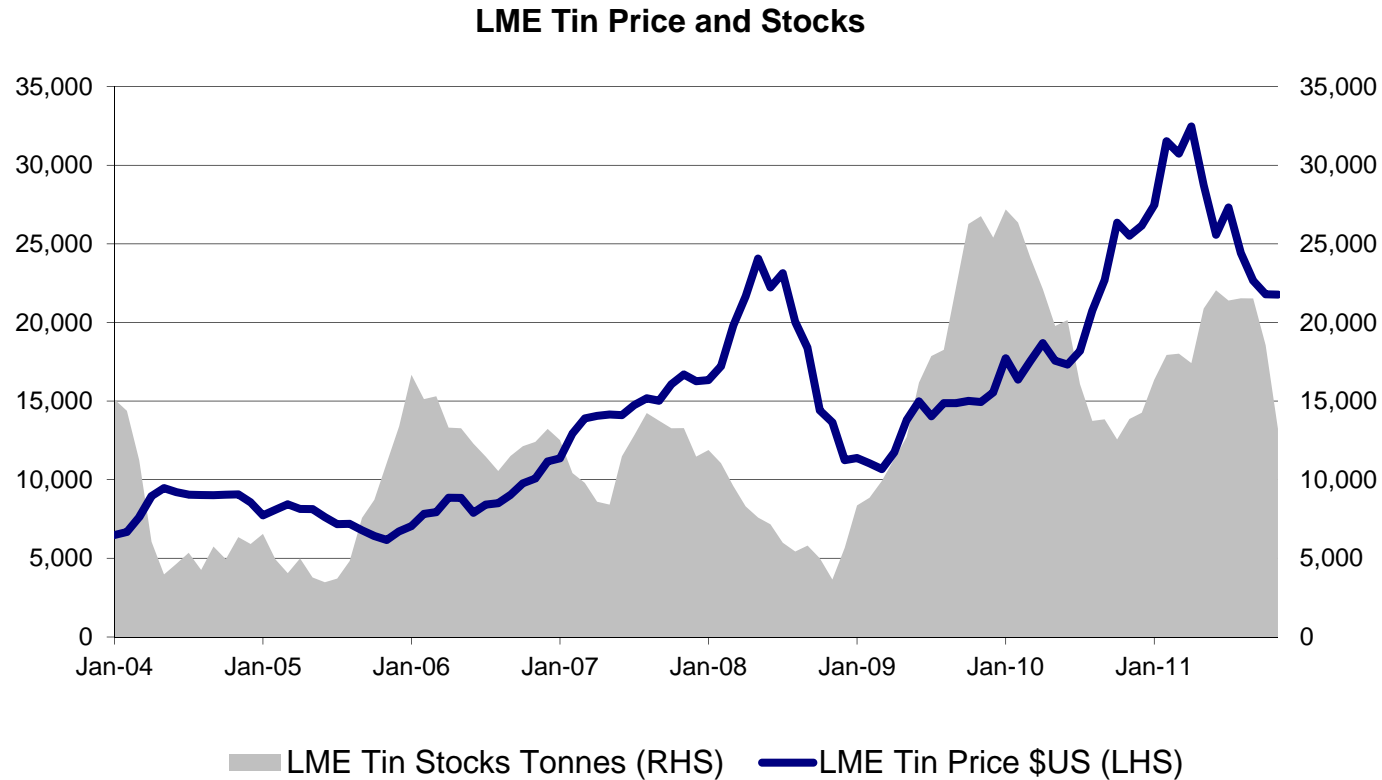

17%

Mongolian Resource Corp Ltd

Tin fundamentals are strong

Stocks have rapidly declined from +24,000t to 13,230t over the past 4 months < 14 days supply with 10,000+ tonne deficit forecast for next two years

Tasmania Tin Assets

-
- \$21.5M after tax profit (2010: \$5.0M)
 - Strong Exploration success, 12 years of Resource and 4 years of reserves – new lodes and high grade intercepts
 - Current Production rate of 6,000t tin in concentrates at cash costs of A\$16,000; Target 8,000tpa tin at A\$12,000.
 - Development of Northern decline has commenced with first target to develop the high grade Area 4 zone
 - Record monthly mine production in September and record quarterly mine production expected for December quarter
 - New trucks on site and 2 from 4 upgraded loaders on site and continued focus on UG productivity
 - Processing plant reviews underway to optimise throughput and performance

Wingellina Nickel and Cobalt Project

Focus has been on finalising approvals and seeking partners for the finance and development of the project

- Water exploration successful with discovery of water field. Final drilling and testing to be completed early next year
- Final PER (EPA) submission awaiting final water studies, all other studies complete
- Mining and Infrastructure agreement signed last year
- Phase 1 feasibility completed with \$3.4Bn NPV
- 183Mt Resource and 167Mt Reserve with only 25% of geological strike explored
- Claude Hills added another 33.3Mt @ 0.81% or 19Mt @ 0.96%

Capital Structure*

Enterprise value of A\$250 Million plus A\$70 Million of Listed Investments.

Market	ASX
Share Code	MLX
Share Price	\$0.25
Shares on Issue	1,340 Million
Mark Capitalisation	\$335 Million
Net Cash and working capital	\$83 Million
Enterprise Value	\$252 Million
Market value of investments	\$60 Million

Major Shareholders

APAC Resources	29.6%
Jinchuan Group	13.1%
Guinness Peat Group	6.7%
Blackrock Invest	5.4%
Board & Management	6.0%
Top 20	81%
Top 50	> 87%

*As of 24 November 2011, Net Cash and receivables based on 31 October 2011 unaudited accounts

The year ahead

Wingellina Nickel (MLX 100%)

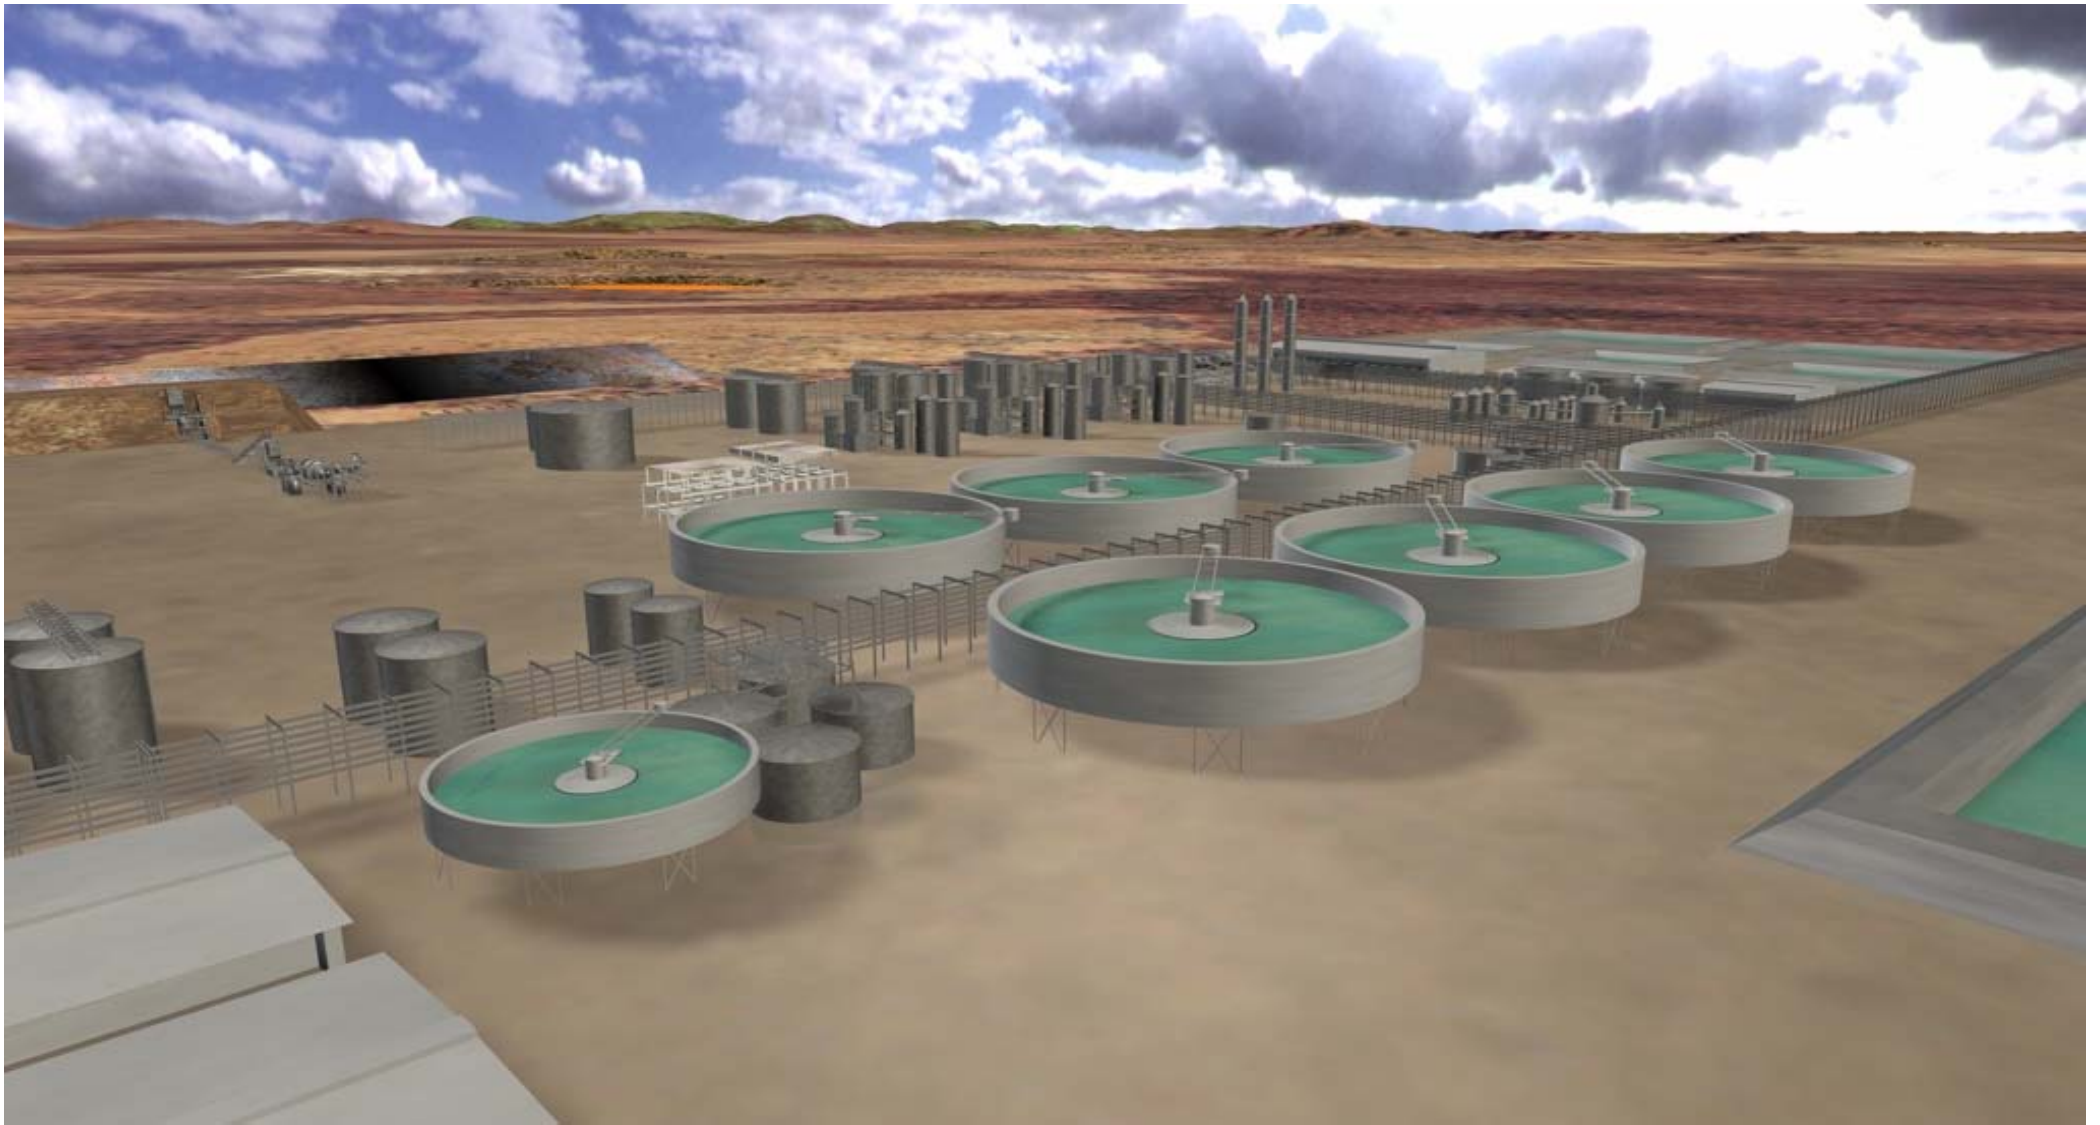

- Finalise options for financing and development of this World class project and crystallise value for shareholders
- Complete all outstanding approvals

Tasmania Tin Operations (MLX 50%)

- Increase Renison production to 8,000tpa rate at a cash cost of A\$12,000
- Further increase reserve and resources – Target Reserve of 7+ years and Resource 15+ years.
- Commence development of Tin expansion project (Rentails) of 5,000tpa

Corporate

- Continue to assess and invest in opportunities to complement our existing portfolio

Thanks!

Nickel Division
