2(b) Board Composition

The Directors determine the composition of the Board employing the following principles:

- the Board, in accordance with the Company's constitution must comprise a minimum of three directors;
- the roles of the Chairman of the Board and of the MD should be exercised by different individuals;
- the majority of the Board should comprise directors who are non-executive;
- the Board should represent a broad range of qualifications, experience and expertise considered of benefit to the Company; and
- the Board must be structured in such a way that it has a proper understanding of, and competency in, the current and emerging issues facing the Company, and can effectively review management's decisions.

The Company's constitution requires one-third of the directors (or the next lowest whole number) to retire by rotation at each Annual General Meeting (AGM). The directors to retire at each AGM are those who have been longest in office since their last election. Where directors have served for equal periods, they may agree amongst themselves or determine by lot who will retire. A director must retire in any event at the third AGM since he or she was last elected or re-elected. Retiring directors may offer themselves for re-election.

A director appointed as an additional or casual director by the Board will hold office until the next AGM when they may be re-elected. The MD is subject to retirement by rotation. Any director appointed as an additional or casual director, is not to be taken into account in determining the number of directors required to retire by rotation.

2(c) Board Membership

The Board is currently comprised of four non-executive directors and two executive directors. Details of the Board member's experience, expertise and qualifications are set out in the Directors' Report of the Annual Report under the heading "Directors".

D M Marantelli	MD & Executive Director	12 / 11 / 2018
SD Heggen	Independent Non-Executive Director	25 / 10 / 2012
M Jerkovic	Independent Non-Executive Director	01 / 05 / 2017
Y Zhang	Non-Executive Director	09 / 01 / 2017

2(d) Chairman and MD

The Chairman is responsible for:

- leadership of the Board;
- the efficient organisation and conduct of the Board's functions;
- the promotion of constructive and respectful relations between Board members and between the Board and management;
- contributing to the briefing of directors in relation to issues arising at Board meetings;
- facilitating the effective contribution of all Board members; and
- committing the time necessary to effectively discharge the role of the Chairman.

The MD is responsible for:

- implementing the Company's strategies and policies; and
- the day-to-day management of the Consolidated Entity's business activities.

The Board specifies that the roles of the Chairman and the MD are separate roles to be undertaken by separate people.

2(e) Independent Directors

The Company recognises that independent directors are important in assuring shareholders that the Board is properly fulfilling its role and is diligent in holding senior management accountable for its performance. The Board assesses each of the directors against specific criteria to decide whether they are in a position to exercise independent judgment.

Directors of Metals X Limited are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

In making this assessment, the Board considers all relevant facts and circumstances. Relationships that the Board will take into consideration when assessing independence are whether a director:

- is a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- is employed, or has previously been employed in an executive capacity by the Company or another group member, and there has not been a period of at least three years between ceasing such employment and serving on the Board;
- has within the last three years been a principal of a material professional advisor or a material consultant to the Company or another group member, or an employee materially associated with the service provided;
- is a material supplier or customer of the Company or other group member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer; or
- has a material contractual relationship with the Company or another group member other than as a director.
- has been a director of the entity for such a period that his or her independence may have been compromised.

The Board notes that the mere fact that a director has served on a Board for a substantial period does not mean that he or she has become too close to management to be considered not independent. The Board will regularly assess the independence of all and any director who serves on the Board.

Family ties and cross-directorships may be relevant in considering interests and relationships which may affect independence, and should be disclosed to the Board.

The Company does not comply with ASX Recommendation 2.4, there is a majority of non-executive directors but there is not a majority of independent directors on the Board. In accordance with the definition of independence above, only three of the directors of the Company are considered to be independent.

The Board believes that the Company is not of sufficient size to warrant the inclusion of more independent non-executive directors in order to meet the ASX recommendation of maintaining a majority of independent non-executive directors. The Company maintains a mix of directors from different backgrounds with complementary skills and experience.

In recognition of the importance of independent views and the Board's role in supervising the activities of management the Chairman is a non-executive director.

2(f) Company Secretary

The appointment, performance, review, and where appropriate, the removal of the Company Secretary is a key responsibility of the Board. All directors have access to the Company Secretary who is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board.

2(g) Avoidance of Conflicts of Interest by a Director

In order to ensure that any interests of a director in a particular matter to be considered by the Board are known by each director, each director is required by the Company to disclose any relationships, duties or interests held that may give rise to a potential conflict. Directors are required to adhere strictly to constraints on their participation and voting in relation to any matters in which they may have an interest.

2(h) Board Access to Information and Independent Advice

Directors are able to access members of the management team at any time to request relevant information.

There are procedures in place, agreed by the board, to enable directors, in furtherance of their duties, to seek independent professional advice at the company's expense.

2(i) Review of Board Performance

The performance of the board and each of its committees is reviewed at least annually by the Chairman. Performance evaluations are conducted annually which involve an assessment of each board member's performance against specific and measurable qualitative and quantitative performance criteria. The performance criteria against which directors and executives are assessed is aligned with the financial and non-financial objectives of Metals X Limited. Directors whose performance is consistently unsatisfactory may be asked to retire.

An analysis of fees paid to the external auditors, including a breakdown of fees for non-audit services, is provided in the notes to the financial statements. It is the policy of the external auditors to provide an annual declaration of their independence to the Board.

The external auditor is requested to attend the Annual General Meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the audit report.

Internal Audit

The Company does not currently have a formal internal audit function however the Audit and Risk Committee and the Board oversee the effectiveness of risk management and internal control.

The Board works closely with management to identify and manage operational, financial and compliance risks which could prevent the Company from achieving its objectives. The Audit and Risk Committee actively encourages the External Auditor to raise internal control issues, and oversees management's timely remediation thereof.

The Company seeks to attract and retain directors and executives with the appropriate expertise and ability to create value for shareholders.

The remuneration structure for non-executive directors is not related to performance. Non-executive directors receive fees which reflect their skills, responsibilities and the time commitments required to discharge their duties. The Company does not pay retirement benefits to non-executive directors (other than superannuation contributions in accordance with its statutory superannuation obligations).

The remuneration structure for executive directors and other executives reflects the Company's performance culture: there is a direct correlation between the executive's reward and individual and Company performance so as to seek to ensure that the Company's remuneration policy is aligned with its long term business objectives and the interests of shareholders and other stakeholders.

Nomination

A profile of each director is included within the Directors' Report of the Annual Report under the heading "Directors".

The Company has a written agreement in place with each director setting out the terms of their appointment.

The committee and the Board consider the composition of the Board at least annually, when assessing the Board's performance and when considering director election and re-election.

In considering whether the Board will support the election or re-election of incumbent directors, the committee considers the skills, experience, expertise, diversity and contribution made to the Board by the director and the contribution that the director is likely to make if elected or re-elected.

When considering appointing new directors, the committee assesses the range of skills, experience, expertise, diversity and other attributes from which the Board would benefit and to the extent to which current directors possess such attributes. This assessment allows the committee to provide the Board with a recommendation concerning the attributes for a new director, such that they balance those of existing directors.

All material information that is relevant to the decision as to whether or not to elect or re-elect a director is provided to shareholders in the explanatory notes accompanying the notice of meeting for the Annual General Meeting at which the election or re-election is to be considered.

Although no system of internal control can provide absolute assurance that the business risks will be fully mitigated, the internal control systems have been designed to meet the Company's specific needs and the risks to which it is exposed.
